IDENTIFIERS *Colorado

ABSTRACT

This compendium of statistical data is a companion to the document entitled "Scorecard on Colorado Public Higher Education--How the Public Higher Education System and Its Students Perform on Selected Measures," which examines selected performance measures for Colorado public higher education institutions. Data in this document are compiled at the institutional level and organized into four broad categories: students, degrees, faculty, and finance, summarized by sector as follows: public institution totals; a state summary, and separately by research universities, universities and colleges, specialized medical institutions, and community colleges; and by local district colleges. System information includes data on faculty diversity, salaries, and student-to-faculty ratios. Finance data cover revenues, appropriations, tuition, alumni and private contributions, and state financial aid. Student information includes college participation rate, test score data, and enrollment data. Graduate data is provided on degrees granted, ethnicity of degree recipients, completion rates, and performance on graduate and professional exams. A final section covers report parameters such as sector groupings and range of years reported, defines terms used, and lists data sources. (CH)

INTRODUCTION

Since 1991, the Commission has annually published the Scorecard on Colorado Public Higher Education. The Scorecard evaluates the status of certain aspects of Colorado public higher education. It was prepared by the Colorado Commission on Higher Education, with the cooperation of the six state higher education governing boards and the four local district colleges. The purpose of the Scorecard is to provide educators, public policy makers, and the public with a measurement of the performance of Colorado college students, and the higher education system as a whole. Data is provided on students, degrees, faculty, and higher education finance. The Scorecard data is summarized in the following sectors:

- Public Institution Total
  - State System Summary
    - Research Universities
    - Universities & Colleges
    - Specialized Medical
    - Community Colleges
  - Local District Colleges

This companion document presents Scorecard measures at the institutional level. In addition, this document provides finance data in inflation-adjusted[1] dollars. While the Scorecard provides information required to evaluate the higher education system as a whole, and is designed to meet the needs of most users, individuals requiring the more detailed institutional data may benefit from this document.

---

[1] Adjusted by the Consumer Price Index (CPI).

SYSTEM

Faculty Diversity

The following table displays the number of full-time faculty and percentage distributions by racial/ethnic group and sex. Reported faculty include those whose primary responsibility is research.

SOURCE: EEO-6 and CCHE Reports Submitted by the Institutions CCHE

Average Faculty Salary

Student/faculty ratios indicate the level of faculty resources that support academic programs. The student faculty ratios used in the statewide budget formulas[1] were used to calculate the number of full-time equivalent (FTE) faculty to be funded, based on actual student enrollment by discipline and level. These ratios are compared in the table to the actual student faculty ratios reported by the institutions.

	1992/93	31,769	36,189	.88

---

[1] These ratios are based on national and state practice, and differ by student level and discipline. For example, the number of students per faculty is lower at the graduate level than for freshmen and sophomores, and some disciplines have higher ratios than others.

Student to Faculty Ratios

Student/faculty ratios indicate the level of faculty resources that support academic programs. The student faculty ratios used in the statewide budget formulas[1] were used to calculate the number of full-time equivalent (FTE) faculty to be funded, based on actual student enrollment by discipline and level. These ratios are compared in the table to the actual student faculty ratios reported by the institutions.

Student Faculty Ratios

FINANCE

Revenue per Student

Sustained financial commitment to instruction can be measured by annual changes in revenue per student. The relationship between students and available revenue is one measure of economic efficiency in higher education. The following table presents data, in inflation-adjusted[1] and actual dollars, showing the total state general fund appropriations plus total tuition revenue per full-time equivalent student.

Revenue per Student
(Total General Fund + Tuition) / (Total FTE Students)

Resident Tuition Revenue

The following table presents data, in inflation-adjusted[1] and actual dollars, showing the resident tuition revenue received by public higher education. Tuition revenue equals tuition rate multiplied by the number of students paying.

Tuition Income per Full-Time Equivalent Non-Resident Student

Tuition income per full-time equivalent non-resident student indicates how much financial support non-resident students are providing to cover the cost of their education. The following table presents data, in inflation-adjusted[1] and actual dollars, showing the total tuition income per non-resident full-time equivalent student.

Non-Resident Tuition Revenue

The following table presents data, in inflation-adjusted[1] and actual dollars, showing the non-resident tuition revenue received by public higher education. Tuition revenue equals tuition rate multiplied by the number of students paying.

STUDENTS

College Participation Rate

First-time students as a percent of high school graduates is a measure of college participation rate. The following table presents the percent of Colorado high school graduates enrolling in a Colorado public college or university the fall following high school graduation. Enrollment includes all high school students that attend a higher education institution, whether or not they are seeking a degree.

ACT and SAT Test Scores of First-time Freshmen

ACT and SAT scores of first-time freshmen indicate the academic readiness of students to perform college level work. Data is shown for all first-time freshmen who graduated from high school in the previous school year, and who enrolled at one of the twelve four-year colleges and universities the following fall. Applicant data is not collected from community colleges. Averages are shown for both Colorado resident (in-state) and non-resident (out-of-state) students.

Average ACT and SAT Scores
for First-Time Enrolled Freshmen

Completion Rates

Completion of a degree after a set period of time is one measure of academic performance.

Two-Year Programs: The two-year program table reports the percentages of Colorado students starting full-time in a public two-year program who complete a two-year degree or certificate at any Colorado institution, or who transfer to a Colorado four-year college or university, after two through six years. Data is reported for the classes starting in fall 1986 through fall 1990. The percentage of students who complete a degree or certificate and/or transfer is shown.

Percent Receiving a Two-Year Degree or Certificate and/or Transferring
for In-State, Degree-Seeking Students Enrolling Full-Time
in Their First Term
at Institutions with Two-Year Programs

Four-Year Programs: The four-year program table reports the percentages of students starting full-time in a degree program at a four-year college or university who complete a baccalaureate degree at any Colorado public institution after four, five, or six years. Currently available data allows the class starting in fall 1990 to be tracked for four years.

Percents Receiving a Four-Year Degree for In-State, Degree-Seeking Freshman Enrolling Full-Time in Their First Term at Colorado Four-Year Colleges and Universities

Graduate and Professional School Exams

Performance of Colorado graduates on graduate and professional school exams is a measure of the academic outcome of education provided by colleges and universities. The following tables report the most recent available Graduate Record, CPA, Registered Nurses, and Practical Nurses exam data. National average data are also reported when available for comparison.

NOTES AND COMMENTS

Sector Groupings

Data is reported for a public institution total, local district colleges, state system summary, and by four institutional sector groupings (under the state system summary):

(1)Research Universities -- Colorado School of Mines, Colorado State University, and University of Colorado at Boulder;

(2)Universities/Colleges -- Adams State College, Fort Lewis College, Mesa State College, Metropolitan State College of Denver, University of Colorado at Colorado Springs, University of Colorado at Denver, University of Northern Colorado, University of Southern Colorado, and Western State College;

(3)Specialized Medical -- the Colorado State University Professional Veterinary Medicine and the University of Colorado Health Sciences Center;

(4)Community Colleges -- Arapahoe Community College, Community College of Aurora, Community College of Denver, Front Range Community College, Lamar Community College, Morgan Community College, Otero Junior College, Pikes Peak Community College, Pueblo Community College, Red Rocks Community College, and Trinidad State Junior College; and

(5)Local District Colleges -- Aims Community College, Colorado Mountain College, Colorado Northwestern Community College, and Northeastern Junior College.

Years of Data Reported

Multiple years of data are reported where possible. Most tables start with 1989-90 data and go through 1993-94. Some national comparison data is only available for limited years. All financial data is expressed in actual dollars. This is a change from previous years, where financial data was reported in both actual and inflation-adjusted (constant CPI 1994) dollars. The Supplemental Data report for the ScoreCard includes the adjusted data.

Definitions

Actual Dollars -- the dollars actually appropriated or spent in a given fiscal year.

ACT Test -- a test administered by the American College Testing Program, taken by many high school juniors and seniors and used as part of the admission process to many colleges and universities.

Associate Degree -- a degree that normally requires at least two but less than four years of full-time equivalent college work.

Asian -- a person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

Bachelor's Degree -- a degree that normally requires at least four but not more than five years of full-time equivalent college-level work.

Black -- a person having origins in any of the black racial groups of Africa (except those of Hispanic origin).

Certificate -- an award given after the completion of an organized program of study at the postsecondary level of instruction, that may require from one to three years, but that is less than an associate degree.

Doctor's -- a degree that normally requires work at the graduate level that terminates in a Doctor's degree. The doctor's degree classification includes such degrees as Doctor of Education and the Ph.D. degree in any field.

First-Time Freshmen -- new enrolling students who have never previously attended a postsecondary institution.

First-professional -- a degree that normally requires completion of a program that meets all three of the following: (1) completion of the academic requirements to begin practice in the profession; (2) at least two years of college work prior to entrance to the program; and (3) a total of at least six academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself.

Full-Time Equivalent (FTE) Student -- one FTE equals 30 credit hours; based on the general principle that a full-time student would take about 15 hours per semester and enroll for two semesters per academic year.

Graduate I -- enrolled in a Master's Degree program, or less than 30 credit hours towards a Doctor's Degree.

Graduate II -- 30 or more credit hours towards a Doctor's degree.

Headcount Student Enrollment -- students enrolled, regardless of the number of courses being taken.

Hispanic -- a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

Inflation-Adjusted (1994) Dollars -- dollars appropriated or spent, expressed in terms of 1993-94 dollars, as deflated by the Denver-Boulder Consumer Price Index - Urban (CPI-U).

In-State -- students that meet statutory requirements for in-state tuition and state general fund support; typically, their tuition charges approximate about 25% of their full cost of instruction.

Master's -- a degree that requires the successful completion of a program of study of at least the full-time-equivalent of one but not more than two academic years of work beyond the bachelor's degree.

Native American -- an American Indian or Alaskan Native, having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

Non-Resident Alien -- a person who is not a citizen or national of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. Resident aliens, who are not citizens or nationals of the United States and who have been lawfully admitted for permanent residence, are reported in the appropriate racial/ethnic categories along with United States citizens.

Non-Resident Student -- students that don't meet statutory requirements for in-state tuition (for example, have lived in Colorado for less than one year) and who don't receive state general fund support; typically, their tuition charges equal or exceed their full cost of instruction.

Out-of-State -- students that don't meet statutory requirements for in-state tuition (for example, have lived in Colorado for less than one year) and who don't receive state general fund support; typically, their tuition charges equal or exceed their full cost of instruction.

Resident Student -- students that meet statutory requirements for in-state tuition and state general fund support; typically, their tuition charges approximate about 25% of their full cost of instruction.

SAT Test -- a test administered by the Educational Testing Service, taken by many high school juniors and seniors and used as part of the admission process to many colleges and universities.

SURDS -- Student Unit-Record Data System, institutional data reported to the Colorado Commission on Higher Education by the institutions since 1986, includes data on enrollment, applications, degrees granted, and financial aid.

Vocational -- enrolled in a vocational two-year degree (AAS) or vocational certificate program, differentiated from freshmen or sophomore status, which is defined as enrolled in an academic degree program.

White -- a person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

Data Sources

Budget Request Documents -- Each institution submits budget request documents in the fall that contain actual expenditure data for the previous year. These have served as the source for much of the financial data and for the student faculty ratios.

CDE High School Graduation Reports -- High school graduates by racial/ethnic status are from reports produced by the Colorado Department of Education.

Cohort Tracking System -- A database system, developed by the Commission, used to track groups of students (with a common statistical factor) across time and institutions using data from the Student Unit-Record Data System (SURDS).

CPA Candidate Performance on the Uniform CPA Examination, Annual Editions, National Association of State Boards of Accountancy.

EEO-6 Forms -- The Federal Office of Civil Rights collects data every other year on the racial/ethnic composition of employees in higher education. This data was used in reporting the sex and racial/ethnic composition of full-time faculty. For years that the EEO-6 is not reported, CCHE Summary Reports are distributed and collected to provide the same summary data.
